# GETTYSBURG
SCOURGE of WAR

SCOURGE OF WAR - GETTYSBURG GOES GOLD!

Norb Software Development, Inc. announces that "Scourge of War - Gettysburg" has been released and is available for immediate purchase. The game can be purchased by download only and is available at: *http://www.ScourgeofWar.com*.

The game may be downloaded and used in Demo mode for free. Demo mode provides the player with one single-player and one multi-player scenario. The MP scenario can only be played against other players in Demo mode.

The full version of the game may be unlocked at any time by purchasing an activation code at: *http://www.ScourgeofWar.com/purchase.html*. The full version of the game includes 20 historical and alternate history single player scenarios. There are 11 multi-player historical scenarios as well. Also supplied are five tutorial scenarios to provide training for the new player. The game also includes a Sandbox Battles mode to generate an endless number of single-player or multi-player battles.

NorbSoftDev is a group of independent game developers dedicated to recreating history through computer games. Their current title Gettysburg aims to bring the Battle of Gettysburg to life through accurate maps, battle recreation, and a historic ambiance. This game brings the player into those fateful days of July that gave the Union their greatest victory and marked the turning point of the Civil War.
